Best Practices for Data Integrity in LabKey | *LabKey, Steve Hanson*

# Sample Manager Product Update

2025 Sample Manager User Conference  
Hannah Brakke (she/her)

# Sample Manager User Conference Goals

## Education

Expand your Sample Manager knowledge

## Roadmap

Learn where we're going

## Provide feedback

Help us continue to improve

# Year in Review

**30%**

Increase in  
Users

**3x**

Average  
Increase in  
Sample Count  
per Client

**60%**

Increase in  
Overall Data

**140+**

Support  
Requests  
Answered

**350+**

Features &  
Enhancements

# Highlights

Customer Survey

*Your feedback, delivered*

Support Email Launch

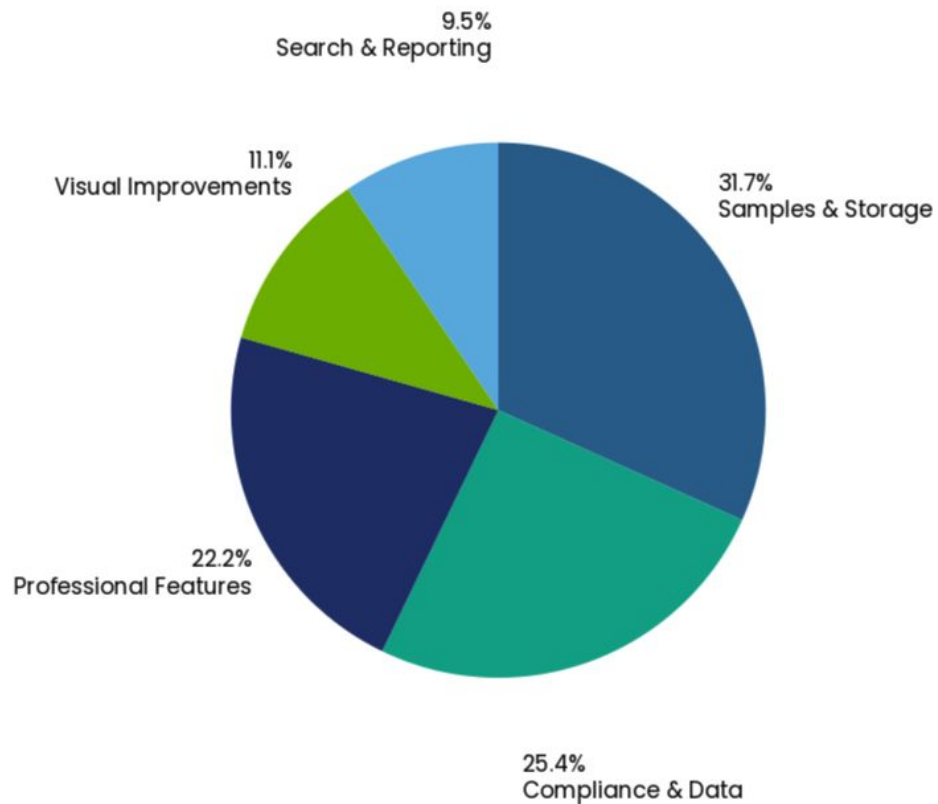

*Get help faster*

Lab Field Trip

*Getting into the minds of  
scientists*

# Feature Breakdown

## Favorites

- Cross-samples type registration
- Most recent storage dashboard
- Enforcing lineage
- Calculated columns
- Identifying fields

# Sample Manager 2025 Themes

**Data Integrity** – Upholding the highest standards of data integrity to ensure confidence in your samples and lab work.

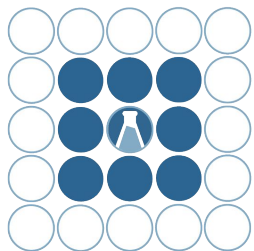

**Ease of Use** – Streamlining data management so you can spend less time on software and more time on science.

**Customer Support** – Partnering with you to provide the guidance and assistance you need, when you need it.
